

Keep Teams in Touch And On Task

React Quickly
Interact Easily
Connect Safely

RM Series two-way radios have the business smarts to help you work better together. They combine outstanding quality with excellent affordability. With crisp, clear audio throughout the workplace and exceptional durability, RM Series radios won't quit in high noise, harsh conditions and hard use.

OUTLAST HARSH CONDITIONS AND HARD USE

We designed the RM Series to meet Military Standard 810C, D, E, F plus G and IP54/55 standards. These radios undergo Motorola's unique Accelerated Life Testing (ALT). This rigorous laboratory testing simulates up to 5 years of field use, including:

BLOWING RAIN

Steady rainfall and wind for 30 minutes on every surface.

VIBRATION

Up to 9 hours of exposure to vibration that simulates the rigors that a radio could undergo while being carried

SALT FOG

48 hours of exposure

BLOWING DUST

6 hours of blowing dust on all surfaces

TEMPERATURE

Multiple hours of exposure to storage temperatures as low as -67° F and as high as 160° F

RM Series™ Business Two-Way Radios

Built Tough To Do Business Better

Channels

To talk with different workgroups quickly, change channels at the touch of a button or with the channel selector knob (available on select models).

Channel Aliasing with Announcements

Assign each channel a user customized channel announcement to confirm which channel you are on. (Non-Display models only)

NOAA Weather Radio Channels

Dedicate a channel to monitoring weather and be automatically notified when there is an alert.

Business Exclusive Frequencies

Operates on 89 UHF, 27 VHF and 5 MURS frequencies.

Voice Prompts

Program RM Series non-display radios on the go. Confirm the changes even without a radio display so you continue working without distraction.

Long Battery Life

Ships with a standard lithium ion battery which lasts up to 12 hours.

Multi-Unit Charging Tray
Motorola Part # PMLN6384

Standard Lithium-Ion Battery
Motorola Part # PMNN4434

CPS USB Programming Cable
Motorola Part # HKKN4027

CONSTRUCTION

Keep projects on track through better coordination of foremen, subcontractors and individual tradespeople.

The weather alert feature helps you proactively notify crews when severe weather is in the area and channel announcement allows you to communicate with different crews efficiently and without having to remove the radio from your belt.

PROPERTY MANAGEMENT

Improve responsiveness from the ground up. The RM Series helps building managers, maintenance technicians, groundskeepers and security personnel respond quickly to tenant needs or emergencies to minimize costs and increase tenant satisfaction.

MANUFACTURING

Hear above heavy equipment and high noise. Clear communications in noisy environments is essential to avoid downtime and respond quickly to problems or injuries. With exceptional audio and rugged construction, the RM Series is ideal for multi-shift operations.
